

On behalf of the NJ-CGA Executive board, we hope that you and your families are safe and healthy during these difficult times.

Working hard for our Communities and Infrastructure.
Take a look

Excavator Presentations: The voice recorded 2020 Excavator Safety Training is now available through the NJ One Call website. Although we were unable to continue our annual training, we feel this is the best alternative to bring this essential education to New Jersey excavators in a safe and effective way.

Homeowner Outreach: New Jersey Underground Facility Operators are working tirelessly to find new and creative ways to share damage prevention information. These efforts include Homeowner Ambassador Program, kid's poster contests, bill inserts, and social media messaging.

Weekly Conference Calls: NJCGA has a weekly conference call to discuss the challenges facing operators and excavators as we attempt to keep our communities and stakeholders engaged, safe and protect the New Jersey Infrastructure.

Announcements

CANCELLED June 2020 NJ CGA Meeting at Atlantic City Electric
CANCELLED June Home Depot Safe Dig Event

WE CANNOT WAIT TO SEE YOU IN OCTOBER!

NJ One Call Mobile App is in the final stages of development and will be available soon!

"Thank you so much to the emergency responders, construction crews, and utility locators for committing to safety in these unprecedented times and ensuring the safety of our infrastructure and communities."

- NJCGA Board of Directors
